3 Important Things **Not To Do** When Learning Photoshop:

DON'T WASTE TIME searching for a keyboard shortcut in the app itself. Instead, just enter the command in the iKeys To Go Command search field and find not only the shortcut but a simple, clear and concise definition as well.

DON'T MISS OUT on the opportunity to learn new Photoshop commands when you're away from your computer. Browsing through the iKeys To Go Photoshop Menus and Group Lists is an excellent way to learn on the go.

DON'T FORGET WHAT YOU'VE LEARNED! The hallmark of a great learning tool is that it reinforces what you've just learned. With iKeys To Go: Photoshop CS5.5, simply tag commands as Favorites, then open the Favorites List.

This iApp gives you a **complete list** of Photoshop commands and a definition for each command. It's a truly dynamic learning tool for all Photoshop users from beginners to professionals. Available for both Mac and PC keyboard shortcuts.
