

Diana's Online Students Rock

Final Cut Pro X Live Online

"Thank you, Diana, for this massive amount of information delivered to us in a great, relaxed and fun fashion." Tom T.

"I've done online training before, and yours was by far the best educationally and technically. It was like being in a classroom. It's actually better, because you can also chat with other attendees and share knowledge, without disturbing anyone. Can't do that in class, and those chats were a valuable part of the training... No one does training like Diana and her group at Rev Up Transmedia. When it comes to my livelihood, I need the best training I can get. Thanks Diana, for helping me stay ahead of the curve! I can't wait for the advanced training class! I would take any class you offered for FCPX in this format, especially with the capability to view the archives if you have to miss a day or two. You're Diana...Can't get much better than that! You kept it moving, entertaining, informative, and I loved the Foley!" Craig L.

"Thank you again for yet another informative day of learning FCP X, I'm actually sad the 5-day session is over. Although I've been using X for some time now, I really think the use of your book and interactive class in tandem helped me understand the interface of FCP X and ability to create a much faster workflow. I would advise anyone who uses Final Cut Pro X to take advantage of any future classes you may offer. I felt my questions were answered in a timely matter and the interaction with others in the class allowed a different perspective on how to approach other options I was not aware of. I felt a connection to the students and your positive energy, it was enjoyable, entertaining, lots of information in a short period of time... well worth the money spent! Keep me posted on your next one cuz I'm in!!!" Janelle B.

"This really answered a lot of questions, and while I already had both 1st and 2nd editions of

your book, the interaction was priceless. I'm no longer confused by the FUD that's being spread and know that I'll be using FCP X and siblings for a long time to come. Being able to chat without interrupting the class flow really adds to the experience. And, I didn't have to deal with TSA to take the class." Tim J

"Diana's online FCP X workshop was the most recent and best of the Final Cut workshops I have taken over the years from a variety of trainers. With the online FCPX workshop Diana has created an excellent program for those who cannot or choose not to attend her courses in person. Students benefit from her many years of professional experience in the television world and by her effective "circular" teaching method, honed by the many courses she has taught. She has excellent training staff to assist during the online coursework, so the student can get personal assistance while the course progresses. We learned and practiced a lot of material in a short amount of time. I am also impressed with the course follow up and am happy to have Rev Ups training resources on my side. I look forward to learning more from Diana in the future and I would not hesitate to recommend this course to anyone interested in learning FCPX." Greg P.

Diana Weynand and her staff are the industry's best!

It was fantastic! I would highly recommend for anyone else wanting to learn FCP. Thank you very much.
Natalie Gibbons, Fox Sports, Los Angeles, CA

Diana Weynand is a great teacher! I know this material and how complicated it is and she taught it well to people that were totally new.

Annalee Wooster, Los Angeles, CA

Thank you so much for providing such a well-run class on FCP. I went to your class without ever using a Mac or FCP and you not only taught the software with lots of real world examples, you had the patience to go over things two even three times so the entire class would understand. This "no one gets left behind attitude" surely contributed to my successful passing of the final certification exam. Thanks again and keep in touch. I would love to take another class on FCP.

Brian Chalmers, Teacher, Earl L. Vandermeulen High School, Port Jefferson, New York

Excellent, the introduction, demonstrations, individual practice and reviews were perfectly paced.

Robert Scheid was a wiz. He created a fun and nurturing environment making the retention of the vast course material

possible and even enjoyable. He introduced us to the basics, revealed many shortcuts, and I feel confident that I can now
